

The Create-A-Beam™ System

Mix & Match For Endless Combinations!

StarterBeams™

This Is Where Beam-Balancing Begins!

Light and easily portable beams attach together in seconds with high-impact tube plugs. Six sections in **COLORZ** are 2' L x 5" W x 2.5" H for 12 feet of beam. Optional hexagonal **BeamDocks** open the imagination to dozens of shapes and balance challenges. Constructed of no-tear **Dura-Tuff Foam** for years of tough institutional use. Activity guide includes over 24 layout configurations.

Curve-A-Beam™

Add Some Twists & Turns!

Your students get 12 feet of flowing, curvy balance fun in a beam design that's so flexible it can be configured in a dozen ways. Each of the 6 **COLORZ** sections are 2" L x 2.5" H x 4.5" W. Sections connect with tube plugs that insert in seconds for quick layout.

Constructed of no-rip **Dura-Tuff Foam** for years of use. Activity guide included.

SkillSpots™

Get kids' feet above the ground so they can feel when they've lost their balance and stepped off. Flat poly spots can't teach balance! No-tear **Dura-Tuff Foam** construction: 2 1/2" high; activity guide included. Three different 6-piece sets for 3 different challenges. In sets of 6 **COLORZ**. Activity guide included.

The "Beam in a Box"!

Create-A-Beam™

Offers the Most Configuration Options!

Now it's possible to create dozens of balance challenges with easy to connect "brick-like" sections. Each is 15" L x 5" W x 2 1/2" H. Sections have 8 pre-set holes which connect with small plastic tubes. Mix-and-match the connecting points for almost endless beam patterns! Layouts can be created in less than a minute, and when disassembled, all 18 **COLORZ** sections store compactly in a box. Constructed of **Dura-Tuff Foam** for years of use. Activity guide included.

Create-A-Beam™.....set (of 18 sections)

Warning: Balancing includes the risk of injury. Never jump, race, or run between sections, areas or Spots. Never space Spots more than 6" apart. Use only under qualified adult supervision.
